

PRICE GUIDE - 2009

Checkdown and Setup	Assuming the instrument is in general good order – the aim is to get the instrument to playing order. The instrument is checked for leaks, the pads are re-seated if necessary, and the key-work regulated to playing order.
Service	The instrument is stripped down; the body and key-work cleaned; pads are re-seated as necessary; corks and springs are checked, replacing where necessary; the instrument is re-assembled, regulated and lubricated.
Full Service with Re-pad	As per service, but with all new pads fitted.

	Checkdown and Setup	Service	Full Service with Re-pad
